Hon. Lewis J. Liman  
 United States District Judge  
 Southern District of New York  
 500 Pearl Street  
 New York, New York 10007

**Re: United States v. LabQ Clinical Diagnostics, LLC, et al.,  
 22 Civ. 751, 22 Civ. 10313 (LJL)**

Dear Judge Liman:

Our office is counsel to Defendants LabQ Clinical Diagnostics, LLC (“LabQ”) and Dart Medical Laboratory, Inc. (“Dart Medical”) in the above-captioned actions. We write, however, on behalf of LabQ and Dart Medical, together with Community Mobile Testing, Inc. and Moshe Landau (collectively, “Defendants”), in response to the Government’s July 25, 2025 letter motion to compel discovery (ECF #599) as well as the Court’s order of earlier today granting that application (the “July 30 Order”) (ECF# 664), and to address additional discovery deadlines contained in the Court’s July 15, 2025 endorsed discovery schedule (the “July 15 Order”) (ECF #588).

Since the parties’ last appearance before the Court, the financial restrictions imposed on Defendants have created unforeseen obstacles to Defendants’ ability to meet the schedule in the July 15 Order. Specifically, on or about July 17, 2025, Defendants lost access to their email server, as well as certain cloud-based storage due to non-payment of outstanding invoices. Defendants notified the Government of this issue during a meet-and-confer on July 24, 2025. Attached hereto are invoices from AppDirect to LabQ totaling \$49,031.94. Defendants’ access to their servers will not be restored until payment of \$36,162.38 is made. As explained in Defendants’ pending motion for reconsideration for writ relief (ECF #592), Defendants are without the ability to pay for their ordinary business expenses, including these technology expenses, without accessing the collateral from the writted properties. This has had a significant trickledown effect on Defendants’ ability to meet the current Court-ordered discovery deadlines, to varying degrees, as set forth below.

**Financial Discovery**

Defendants have reviewed the Government’s motion to compel financial discovery and the subsequent July 30 Order, and note that notwithstanding the server issues, Defendants anticipate

Hon. Lewis J. Liman  
July 30, 2025  
Page 2

substantial completion of financial discovery by August 4, 2025.<sup>1</sup> The completion of financial discovery has taken longer than anticipated because without access to their email and servers, Defendants have been forced to seek responsive documents from third-parties such as attorneys, banks, and agents that they would otherwise have direct access to. Defendants will produce all responsive documents currently in their possession by August 4 and will note any additional materials expected to be received from third-parties.

### **Merits Discovery**

The July 15 Order also contains certain deadlines for merits-related discovery, including a July 30, 2025 deadline for the production of documents relating to patient and claims data, among other things, specifically documents responsive to RFPs 1, 2, 19-22, 31, 33, 36-39.

Defendants have made significant progress on the claims data and have already sent over one million documents to their e-discovery vendor to be processed for production. Again, the document collection process has taken longer than originally anticipated without direct server access. Defendants request a two-week extension of time from July 30, 2025 to August 15, 2025 to complete the production of these documents given both the unforeseen server issues as well as the anticipated size of the production.

The deadline for completion of document discovery is September 18, 2025. The deadline for completion of fact discovery is January 19, 2026. Accordingly, Defendants do not anticipate that the extension of these interim deadlines will require an extension of the fact discovery deadline.

We thank the Court for its attention to this matter.

Respectfully submitted,

*s/ Lee Vartan*

Member

---

<sup>1</sup> Defendants are responding to financial discovery for Defendants and entities owned or controlled by Defendants, or as otherwise agreed between the Government and Defendants. Defendants reject the notion that they are obligated to (or even can) produce financial discovery for each entity identified in the Government's motion to compel to the extent Defendants do not own or control the entity.
